EDUCATION

Mansoura University, Mansoura, Egypt

Sep. 2022 - Present

Bachelor of Communication & Computer Engineering (CCE), Faculty of Engineering

CGPA: 3.67 (A-)

EXPERIENCE

IT Center

2020 - Present

- Trained as IT Specialist in Phones Hardware & Software Issues Diagnosis and Solving.
- Learned to use iron soldering and component replacement to solve hardware issues.
- Used software tools to read, repair, and replace phone firmwares.

PROJECTS

Simple Bank Management System

2023

- Built a simple CLI-based Bank Management System using C language.
- Supported two types of users (Admins, Clients) with in-memory account management and authentication.

Library Management System

2023

- Developed a basic system for managing Employees and Books using C language.
- Implemented in-memory storage with basic CRUD operations.

BMW Website (HTML5/CSS3)

2025

- Designed and developed a static, non-responsive website for BMW, showcasing information about BMW models, electric cars, and lifestyle.
- Utilized HTML5 and CSS3 to create a structured layout with a fixed header, navigation menu, and interactive elements.
- Implemented sections for Home, Models, Electric, BMW Lifestyle, and Contact with a modern design.

Responsive Website Using Bootstrap

2025

- Built a responsive multi-page business website using Bootstrap 5.
- Implemented mobile-first design with navigation bar, cards, forms, and carousel.
- Designed interactive sections showcasing popular destinations in London.
- Developed a dynamic and user-friendly navigation system with smooth scrolling.

TECHNICAL STRENGTHS

Programming Languages

- C , C++ , HTML5, CSS3, JavaScript, Python , Bootstrap.

Knowledge Areas

- Data Structures & Algorithms, Problem Solving.
- Web Development (Frontend basics, Responsive Design, Bootstrap).

EXTRA-CURRICULAR ACTIVITIES

Self Boss Event, Mansoura University

May 2023

- Learned fundamentals of freelancing, client communication, and building an online career.
- [Certificate Link](#)

Introduction to C Programming

July 2024

- Learned C programming fundamentals: syntax, data types, control structures, and functions.
- [Certificate Link](#)

Mastering C & C++ Programming

July 2024

- Gained a comprehensive understanding of both C and C++ programming languages.
- Covered object-oriented programming concepts, advanced features, and coding best practices.
- [Certificate Link](#)

Introduction to Frontend Development with ReactJS

April. 2025

- Gained a comprehensive understanding of ReactJS, including components, state, and hooks.
- Developed interactive web applications with dynamic data handling and user interfaces.
- [Certificate Link](#)

Python Programming Basics

September. 2024

- Gained foundational knowledge of Python programming, including variables, control structures, and functions.
- Developed small projects to practice core concepts and problem-solving skills.
- [Certificate Link](#)

LANGUAGES

Arabic (Native), English
