## PROJECTS

---

**Secure Todo REST API – Node.js, Express, MongoDB, JWT**

*2025*

- **Repository:** [GitHub Link](#)
- Built a secure, REST API for managing todos with full user authentication and per-user data isolation.
- Implemented **JWT-based authentication** to manage sessions and enforce data-ownership control across all routes.
- Designed a clean **MVC architecture** with dedicated controllers, routes, middleware, and Joi-based request validation.
- Integrated MongoDB via Mongoose and secured user credentials with bcrypt password hashing.

**Personal Portfolio Website – Angular (NTI Capstone Project)**

*2025*

- **Live Demo:** [View Live Site](#)
- Designed and developed a responsive single-page application (SPA) to showcase projects, skills, and contact details.
- Built reusable Angular components with client-side routing and mobile-first responsive layouts.
- Deployed the project on Netlify with a continuous, publicly accessible live demo.

## INTENSIVE TRAINING & DIPLOMAS

---

**MEAN Stack Web Development – National Telecommunication Institute (NTI)** *Jul 2025 – Aug 2025*

- Completed an intensive training program covering MongoDB, Express.js, Angular, and Node.js.
- Applied full-stack development skills to real-world project workflows, from database design to deployment.
- Achieved a final score of **97.5%** in the program assessment.
